

Big Data and Computational Biomedical Science Workshop

February 27, 2013 // 9:00 am - 12:00 noon

Beckman Institute for Advanced Science and Technology: Room 4269

This workshop is designed for researchers interested in using large data sets in collaborative activities. With an understanding of our campus strengths, this group will outline strategies for computational technology specific to cancer and identify future funding pursuits. Participants will engage in planning collaborative activities with the end goal being a training grant submission.

Schedule

- 9:00 am** - Check-in/Breakfast
- 9:20 am** - Welcome and Introductions
- 9:30 am** - Discussion
- 10:30 am** - Break
- 10:40 am** - Brainstorming and Planning
- 11:45 am** - Next steps and wrap up
